

ORAL CONTRIBUTIONS

The mural paintings of Ala di Stura (Piedmont, Italy): a hidden treasure investigated	<u>Aceto Maurizio</u> , Angelo Agostino, Gaia Fenoglio, Valentina Giordano, Michelangelo Varetto, Giorgio Castagneri
A Multitechnique Investigation on some early Printed decorated books	Aceto Maurizio, Pietro Baraldi, Danilo Bersani, Giusi Zanichelli, Paolo <u>Zannini</u> , Andrea de Pasquale, Elisabetta Schiavon, Eleonora Canobbio
Raman spectroscopy as a tool for rapid screening of ancient window glass: An 18th century fanlight (Antwerp) as a case study	<u>Baert Kitty</u> , Wendy Meulebroeck, Hilde Wouters, Andrea Ceglia, Karin Nys, Hugo Thienpont, Herman Terry
The Officina Pigmentaria in Pompei: pigments and cosmetics	Baraldi Pietro, Samantha Petruzzo, Cecilia Baraldi, <u>Giorgio Trojsi</u> , Antonio Varone
Archaeometry of Man-Made Ancient Chinese Blue and Purple Barium Copper Silicate Pigments with Emphasis on Studies of the Newly Discovered BaCu ₂ Si ₂ O ₇ Compound (Chinese Dark Blue)	Berke Heinz, <u>Qinglin Ma</u> , A. Portmann, Tristan Corbiere, Eva Freisinger, Jürg Hutter, Zhiguo Zhang, Ferdinand Wild, Xia Yin, Lu Pan
Non-contact Raman mapping of works of Art	<u>Brambilla Alex</u> , Iacopo Osticioli, Daniela Comelli, Austin Nevin, Gianluca Valentini
Comparison of English portrait miniatures by Raman microscopy and other techniques	Burgio Lucia, <u>Anna Cesaratto</u> , Alan Derbyshire
SERS spectra of Mexican dyes	<u>Casanova-González Edgar</u> , Víctor Santos-Vasquez, Baldomero Esquivel, Lorena M. Roldán, Concepción Domingo, José Luis Ruvalcaba-Sil
Raman and UV/VIS/NIR spectroscopy as tools for the classification of ancient glasses	<u>Ceglia Andrea</u> , Wendy Meulebroeck, Kitty Baert, Hilde Wouters, Karin Nys, Herman Terry, Hugo Thienpont
μRaman mapping to study calcium oxalate historical films	<u>Conti Claudia</u> , Chiara Colombo, Marinella Greco, Elena Possenti, Marco Realini, Chiara Castiglioni, Giuseppe Zerbi
Identification of natural resins by vibrational spectroscopies: impact of their ageing	<u>Daher Céline</u> , Céline Paris, Ludovic Bellot-Gurlet, Anne-Solenn Le Hô, Martine Regert
Raman study on medieval-like glass samples: glass characterization, artificial weathering and comparison with ancient K-based glasses	<u>de Ferri Lavinia</u> , D. Bersani, Ph. Colombar, P. P. Lottici, G. Simon, G. Vezzalini
Synthetic organic dyes in the embroidery 'Plants and flowers on a grey fond' by Emile Bernard	<u>de Groot S.</u> , M.R. van Bommel, M. de Keijzer, L.O.E.S. Vermeij, R. Boitelle

A combination of Raman and X-ray fluorescence spectroscopy to investigate porcelain cards.	<u>Deneckere Annelien</u> , Bart Vekemans, Lieke De Vries, Laszlo Vincze, Peter Vandenaabeele, Luc Moens
Identification of synthetic organic pigments:the role of a comprehensive Raman spectral library	<u>Fremout Wim</u> , Steven Saverwyns
Exploring the roots of garnet jewellery: Raman spectroscopic and microscopic analysis of Hellenistic engraved gems	<u>Gast Norbert</u> , H. Albert Gilg, Carina Weiß, Rupert Gebhard, Wolfgang Schmahl, Robert Stark
Automatic Identification System of Raman Spectra of Pigment Mixtures	<u>González Vidal Juan José</u> , Rosanna Pérez-Pueyo, M ^a José Soneira, Sergio Ruiz-Moreno
In situ non-invasive multi-methodological characterization of the pigments of a 17 th century Japanese paper screen from the Stibbert Museum in Florence	<u>Grazzi Francesco</u> , Maurizio Aceto, Angelo Agostino, Elisa Barzagli, Francesco Civita, Roberta Iannaccone, Marcello Picollo, Filomena Salvemini, Marco Zoppi
Raman analysis of 16 th Century Wall paintings in the Basque Country (Spain) assisted with DRIFTS and XRF	<u>Irazola Mireia</u> , Maitane Olivares, Kepa Castro, Maite Maguregi, Irantzu Martinez-Arkarazo, Juan Manuel Madariaga
Raman spectroscopy analyses of Palaeolithic industry from Guadalteba terrace river, Campillos (Guadalteba county, Southern of Iberian Peninsula)	<u>Jorge-Villar Susana</u> , Cristina Capel, Víctor Hernández, Javier Medianero, José Ramos, Gerd Weniger, Salvador Domínguez-Bella, J. Linstaedter, Pedro Cantalejo, Mar Espejo
Investigation of a Group of Byzantine Ceramics from Kuşadası Kadikalesi/ Anaia by Using Raman Spectrometry	<u>Kırmızı Burcu</u> , E.Hale Göktürk, Philippe Colomban, Lale Doğer, Zeynep Mercangöz
The first <i>in situ</i> micro-Raman spectroscopic analysis of prehistoric cave art of Rouffignac St-Cernin, France	<u>Lahlil Sophia</u> , Matthieu Lebon, Colette Vignaud, Ina Reiche, Hélène Rousselière , Lucile Beck, Michel Menu, Frédéric Plassard
Recent advances for in-situ Raman sampling and combining methods for artwork analysis	<u>Lancelot Eloise</u>
Provenance investigations of amber jewellery excavated in Lower Silesia (Poland) and dated back to Early Iron Age	<u>Łydźba-Kopczyńska Barbara I.</u> , Bogusław Gediga, Michał Sachanbiński
Analytica Pompeiana Universitatis Vasconicae: field multianalytical analyses in Pompeii	Martinez-Arkarazo Irantzu , Ulla Knuutinen, Maite Maguregui, Kepa Castro, <u>Juan Manuel Madariaga</u>
The Use of Raman Spectroscopy for Forensic Paint Analysis	<u>Massonnet Geneviève</u> , Cyril Muehlethaler, Patrick Buzzini
The colour palette of the Roman Villa at Piazza Armerina in Sicily	<u>Megna Bartolomeo</u> , Giovanni Rizzo, Laura Ercoli
Investigation of polychrome medieval sculptures with a mobile Raman microprobe	<u>Menzel Jacqueline</u> , Christoph Herm
Micro-Raman study of Medieval Cistercian 12th century manuscripts: Santa Maria de Alcobaça, Portugal	<u>Muralha Vânia S. F.</u> , Catarina Miguel, Maria João Melo

Degradation potential of particulate matter: A Micro-Raman spectroscopy study at the Alhambra.	<u>Potgieter-Vermaak Sanja</u> , Benjamin Horemans, Willemien Anaf, Velichka Kontozova, Carolina Cardell, Rene Van Grieken
Comparative study of surface-enhanced Raman scattering (SERS) methodologies for the detection of organic colorants in cultural heritage investigations	<u>Pozzi Federica</u> , Marco Leona
Tandem technique of a standard Raman spectroscopy and man-portable LIBSpectrometer as a routine tool at present for pigment identification	<u>Raikov Sergei</u> , Elena Dovnar-Zapolskaya, Vasiliy Kiris
Micro-Raman and GC/MS analysis of pigments and binders in the 19 th c. wall paintings in three churches from Republic of macedonia	Robeva Čukovska Lidija , <u>Biljana Minčeva-Šukarova</u> , Anna Lluveras, Maria Perla Colombini, Irena Nastova
Spectroscopic investigation of artificial patinas on recent-type bronze	<u>Ropret Polonca</u> , Tadeja Kosec
Micro Raman spectroscopy (MRS) and Energy dispersive Xray fluorescence (μEDXRF) analysis of pigments in the Iberian cemetery of Tútugi (Galera, Granada, Spain)	<u>Sánchez Alberto</u> , José Tuñón, Manuel Montejo
Micro-Raman and Surface-Enhanced Raman Scattering Analysis of Pigments in Ancient Islamic Manuscripts of Meknes (Morocco)	<u>Sanchez-Cortes S.</u> , S. Ait Lyazidi, M. Haddad, A. El Bakkali, E. del Puerto
A Systematic SERS Study of Eosin Combining Theory and Experiments	Shah N. , <u>F. Casadio</u> , R.P. Van Duyne, G. Schatz A. Davis, N. Valley, N. Greeneltech, N. Daly
Spectroscopic investigations on marker pen inks	<u>Sodo Armida</u> , Marina Bicchieri, Maria Antonietta Ricci, Giuseppe Ricci
Raman spectroscopy latest techniques in Art restoration studies	Tagliapietra Riccardo
Raman spectroscopy of pigments based on carbon	<u>Tomasini Eugenia</u> , Beatriz Halac, María Reinoso, Emiliano Di Liscia, Marta Maier
In situ Raman and XRF analysis of a 16 th century maiolica tile floor.	<u>Van Pevenage Jolien</u> , Melissa Vandevijvere, Lien Van de Voorde, Bart Vekemans, Laszlo Vincze, Peter Vandenabeele, Luc Moens
Raman microspectrometry as an efficient tool for the determination of potential sources of Paleolithic artifacts in Belgium	<u>Vanbrabant Yves</u> , Christian Burlet, Cécile Jungels, Dominique Bonjean, Stéphane Pirson, Éric Goemaere, Grégory Abrams, Kévin Di Modica
Micro-Raman spectroscopy on two chalices from Benedictine Abbey of Einsiedeln (Switzerland): identification of gemstones	Wörle Marie , <u>Stefanos Karampelas</u> , Katja Hunger , Hanspeter Lanz
Raman Spectroscopy for the detection and characterization of “elemental carbon”; its relevance in the field of cultural heritage.	<u>Zerbi Giuseppe</u> , Matteo Tommasini, Claudia Conti, Anna Ferrugiari

Pigment alteration of mediaeval wall paintings in Herzberg and Ziesar, Germany	<u>Ziemann Martin A.</u> , Frank Schluetter, Steffen Laue
A novel piece of Minoan art in Italy: the first spectroscopic study of the wall paintings from Phaistos	Zoppi Angela , <u>Cristiana Lofrumento</u> , Marilena Ricci, Emma Cantisani, Tiziana Fratini, Emilio Mario Castellucci
